

MATHS IN MY WORLD

Poster Competition

The Mathematics Department is running a poster competition which is open to all students (Year 7-12). The theme of your poster needs to be 'Maths in My World'.

We would like you to take a snapshot of your life and show where Mathematics is evident. The design is up to you. However, we would like it to be innovative. Maybe come up with a catchy phrase or anything to set your poster apart.

Requirements

- All posters must be A3 in size (or smaller).
- All posters must be submitted electronically to Mrs Garvie (Kathleen.garvie@merici.act.edu.au)
- All posters must be submitted by 3pm Friday Week 3, Term 1, 2019.
- Students full name, year level and PC must be clearly written on each submission.

Judging Criteria

- Creativity
- Mathematical detail
- Originality
- Presentation

Posters will be judged by a panel. All judgments are final and are non-negotiable.

What could you win?

- There will be one overall winner selected who will win a \$50 Canberra Centre shopping voucher.
- In addition one Highly Commended poster will be selected and awarded a canteen voucher: (Year 7 and 8; Year 9 and 10; Year 11 and 12)
- In addition, all entries may have the opportunity to have their work presented in Maths classrooms throughout the College!

Think about what you have learnt in the last 6 months in your Mathematics class. Where do you see this Maths in real life? How can you encourage younger students to notice real-life Mathematics concepts around them?

Entries Close Friday Week 3. Winner announced on Pi Day (14/3)
